

For this assignment, you'll be creating the HTML for some web pages of our competitive programming platform, which will be developed progressively in the upcoming assignments.

Assets

You can access the set of asset images used in the landing page via this [link](#).

1. Landing Page

The page you will be creating is the following:

You can incorporate the following testimonial for the testimonials section:

Name: June Cha

Position: Software Engineer

Photo: [Link to photo](https://randomuser.me/api/portraits/women/44.jpg)

Testimonial:

"This platform is an absolute game-changer for competitive programmers. The extensive range of problems and challenges offered here truly hones your skills and prepares you for any coding competition. With detailed solutions and an active community, it's the perfect environment to sharpen your coding prowess."

The other testimonials will be provided and added in the JavaScript assignment.

2. Signup Page

The page you will be creating is the following:
